

PERFORMANCE WORK GLOVES. These high quality performance work gloves are constructed of a synthetic and natural material blend. These gloves are highly durable and comfortably form-fit to the hand without inhibiting dexterity.

EXTENSIVE REINFORCEMENT: Salisbury by Honeywell work gloves have extensive palm and finger coverage. The PVC based asphalt reinforcement material is tacky, making the gloves more dexterous, durable and provides a secure grip even in wet conditions.

CUFF: Some of these gloves feature a FlexMesh™ cuff which is a protective, breathable and comfortable cuff closing system that does not require constant adjusting.

THUMB CUT: The unique 3-D palm construction design prevents bunching between the thumb and index finger.

STREAMLINED KNUCKLE PROTECTION: The knuckle protection on the back of the hand is internalized and will NOT get “caught up” when reaching into a tool pouch or pocket.

DURABLE SYNTHETIC LEATHER ON BASE OF PALM: The base layer is synthetic suede called SupraTex™. This material is highly breathable and durable. The material wicks away heat and moisture which prevents sweat and heat from building up.
